PROFESSIONAL SUMMARY

As a web designer, my role goes beyond just making websites look attractive; it's about creating a holistic digital experience. I begin by conducting thorough research to understand the client's objectives, brand identity, and the specific needs of their audience. This allows me to craft designs that are not only visually appealing but also strategically aligned with the business goals.

I work on creating a clear, intuitive layout, ensuring that the navigation is smooth and that users can easily find what they're looking for. I prioritize responsive design, making sure the website looks and functions flawlessly across devices, whether it's a desktop, tablet, or smartphone.

EXPERIENCE

Full Stack Developer
ZOHO, India, Nagapattinam
2025 - Now
